

WOLCOTT & LANDER

(RW & Sherri
Smith)

One magic 4th of July weekend at a Texas bar, RW jumped up on the stage—axe in hand—to back Sherri, whose band had lost its lead guitarist that very morning; two harmonic verses later they were bonded for life!

Both have studied music from the classical persuasion, but their strong tendencies for progressive music give their sound unique versatility. Creator of the “cow jazz” genre, RW’s deep voice and mastery of the strings and keyboard scaffolds Sherri’s rockin’-jazzy flare for vocals.

As their Texas band “Tallgrass” entwined their love for music, their growing love for each other led to a rich, full life of family and all things creative.

RW & Sherri packed up the family in '94, answering the call of the mountains, and headed for Virginia. There they regained a family heritage that goes way back on Sherri’s side as they embraced a creative rural life on the Blue Ridge.

RW & Sherri are the innovators of “Azurat” (www.azurat.com) which is dedicated to meeting a wide and ever broadening spectrum of artist’s needs; from producing and hosting events, raising funds and promoting awareness to helping artists develop their talents and businesses. Together they work with people of all ages to encourage creativity and build community around cultural ideals and artistic endeavors.
